## **SHE LOVES MISSION + VISION.**

She Loves is a 501(c)(3) non profit organization. Our Mission is to empower each girl to curate a life She Loves. We do this by first teaching girls to love themselves. Our programs serve as a guide to helping participants seek and define their purpose. We prioritize knowledge sharing and representation when creating these developmental opportunities. This means we teach our girls to understand their history as women, what we have done and how far we have to go. We want our girls to know they have options in this world, so we explore a variety of careers, healthy habits and ways of life directly from women they can aspire to, speak with and include in their network of mentors to call on.

We seek to become an organization with sustainable programs, resources and facilities that house full circle moments. Our participants will grow to become powerful leaders with a powerful vision for their future. They will return to their communities as an example of what happens when you celebrate and promote excellence in all areas of life. They will impact and uplift others, communities, states, and countries.

*"I am an example of what is possible when girls from the very beginning of their lives are loved and nurtured by people around them" - Michelle Obama*
